All types of paper, including cardboard, junk mail, newspaper, magazines and telephone books	
For a complete list of recyclables, visit www.888CleanLA.com	

DID YOU KNOW...

- Each day, 35,000 tons of waste are disposed of in Los Angeles County. That's about 11 million tons of waste per year, or enough trash to fill Dodger Stadium every 11 days.
- Recycling one glass bottle saves enough energy to light a 100-watt bulb for four hours.
- Recycling one six-pack of aluminum cans saves the same amount of energy needed to drive a car five miles.

REDUCE

Reducing waste is the best way to save landfill space. Examples include buying items in bulk or concentrated for less packaging waste and using glassware instead of paper or Styrofoam® cups.

RECYCLE

Recycling saves precious natural resources and landfill space. It also helps reduce pollution, and saves energy and money. Best of all, it's easy to do.

REUSE

Items you may be through with are often useful to others. Try donating used clothing to charities, reusing grocery bags as trash bags, or passing on magazines for others to read.

PREVENT SCAVENGING

If you see strangers taking items from your recycling bin, contact your local Sheriff's Department. Scavenging is an illegal activity punishable by fine or jail time.

GET CARRIED AWAY... START RECYCLING NOW

Contact your waste hauler and request a recycling bin. The bins are free to residents in the unincorporated areas of Los Angeles County. To locate the waste hauler(s) in your area, call

1-888-CLEAN LA

Reduce. Reuse. Recycle.
